WINERY

ЯKAES 758

White Dry Wine

Varietal composition

XYNISTERI 100%

Harvest

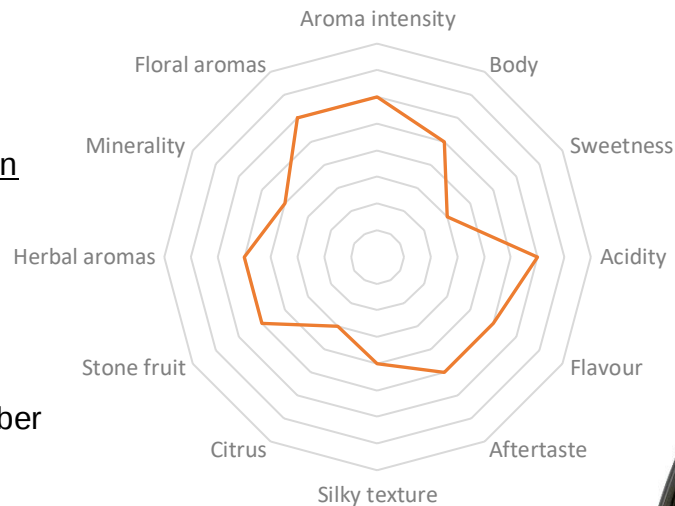

Mid to late September

Vineyards

The vineyard with the lowest altitude of the vineyards cultivated by the winery at an average altitude of 470 meters.

Vinification

Our winemaking process carefully handles 50% of the grape yield, destemming and gently pressing them before cold-temperature extraction to preserve delicate aromatics. The vineyard's intrinsic floral bouquet is a hallmark of this wine. Further enhancing its complexity, the wine undergoes a four-month maturation in acacia barrels. Bottling occurs on-site at our winery, six months post-harvest, ensuring optimal product quality and freshness.
