WINERY

2RIZES Xynisteri

White Dry Wine

Varietal composition

XYNISTERI 100%

Harvest:

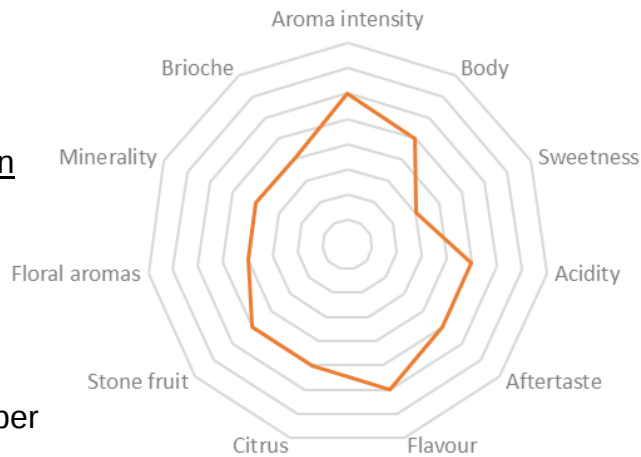

Mid to late September

Vineyards:

From vineyards located on the slopes of the Diarizos valley with different altitudes

Vinification:

Each vineyard is individually vinified under precise conditions to meticulously express its unique characteristics. These distinct wines are then expertly blended to achieve the signature NELION profile. A crucial phase of maturation follows, with the wine resting for five months on its fine lees, enhancing complexity and texture. Finally, just six months post-harvest, bottling takes place at our winery, ensuring the wine's freshness and integrity.
